Volunteer Platform

Board service is one of the most valuable, and most common, types of volunteering your employees do. It's live now and tracked automatically so your company can recognize board service like any other contribution!

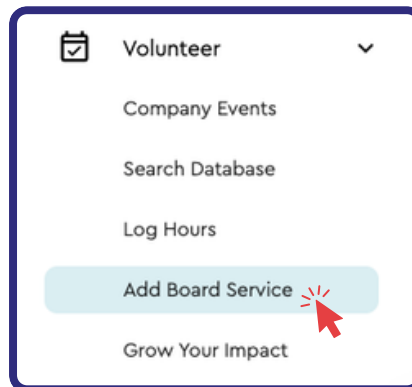

How to

Log Board Service

Track the impact you're making as a board member just as you would a volunteer event!

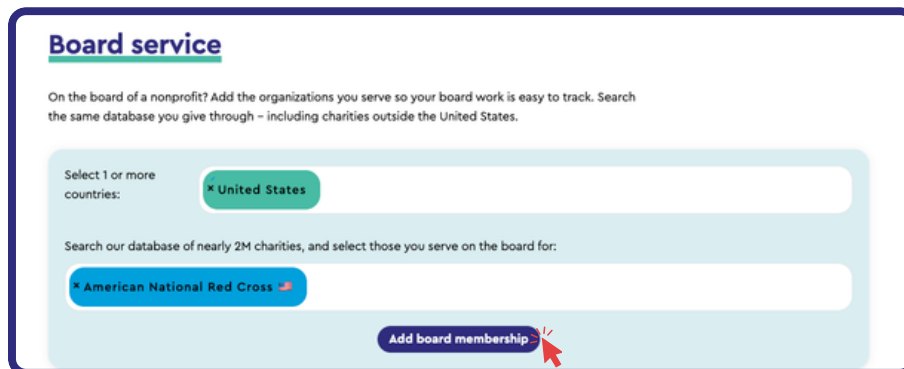

1

Log in to your account and select "Add Board Service" from the Volunteer menu.

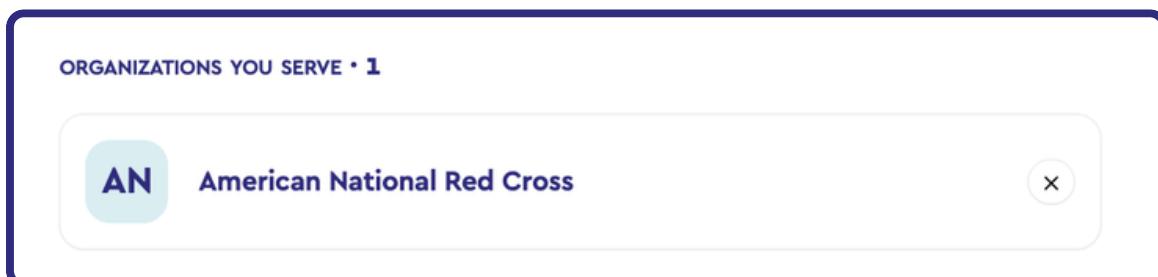

2

Search for the charity, select it, and click "Add board membership."

3

You will now see your board service in your user settings. You can add several organizations if you are part of more than one board.

4

You are now ready to log board service hours!

When you log hours to these organizations as board service, the hours you log for these organizations are automatically **tagged as board service** – allowing Dunder Mifflin to track them separately in the company's impact report.

5

Go back to the Volunteer menu and select "Log Board Service."

Log Board Service

Grow Your Impact

6

Fill out the form to log your hours. The charities you've added as board membership will automatically populate!

Track your board service hours

Let us know how many hours you've completed as part of any board service commitment you've registered in your user settings, and we'll add them to your Dashboard synced with the correct nonprofit.

Charity

American National Red Cross

Service Date

10/07/2026

Hours Served

2

Log hours

7

Your board service hours will be logged in the "Volunteering history" section of your user dashboard. Your board service hours will be tracked in your company's overall Volunteering data, just like any other volunteer event.
